1 Who are we and what do we offer?

Foodvalley NL is a foundation aiming to accelerate the transition towards a sustainable food system (**Food Transition**). Foodvalley NL closely works with a wide international network of organisations with a similar mission, varying from (semi-)governmental institutions and farmers to investors and large commercial corporates (the **Ecosystem**). Foodvalley NL inter alia offers data and services via <https://www.foodvalley.nl/>.

Besides <https://www.foodvalley.nl/>, Foodvalley NL wishes to develop and launch an online platform to map and monitor the Ecosystem. For this online platform we use the platform offered by We Connect Data BVBA (**WCD**). The online platform shall hereafter be referred as the **Platform**. The main purposes of the Platform are to enable the Ecosystem to (a) expand, (b) efficiently gather and exchange data and knowledge, (c) make connections, interact and communicate and (d) combine data sources, all such to accelerate the Food Transition.

More information about us and the Platform is available on our **Websites** www.foodvalley.nl and [www.foodleap.com]. All services of Foodvalley NL shall hereafter be referred to as **Services**.
